Notice of Funding Opportunity Purpose

The Small Business Technology Transfer (STTR) grant program helps United States small business concerns (SBCs) that partner with a nonprofit research institution bring scientific innovations to the marketplace. The STTR program supports feasibility studies to later stage research and development (R&D) needed to develop a commercial product.

Funding Opportunity Goal(s)

NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.

The goals are:

- to foster fundamental creative discoveries, innovative research strategies, and their applications as a basis for ultimately protecting and improving health;
- to develop, maintain, and renew scientific human and physical resources that will ensure the Nation's capability to prevent disease;
- to expand the knowledge base in medical and associated sciences in order to enhance the Nation's economic well-being and ensure a continued high return on the public investment in research; and
- to exemplify and promote the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science.

In realizing these goals, the NIH provides leadership and direction to programs designed to improve the health of the Nation by conducting and supporting research:

- in the causes, diagnosis, prevention, and cure of human diseases;
- in the processes of human growth and development;
- in the biological effects of environmental contaminants;
- in the understanding of mental, addictive and physical disorders; and
- in directing programs for the collection, dissemination, and exchange of information in medicine and health, including the development and support of medical libraries and the training of medical librarians and other health information specialists.

Key Dates

Posted Date

May 28, 2026

Open Date (Earliest Submission Date)

August 05, 2026

The following table includes NIH [standard due dates](https://grants.nih.gov/grants/how-to-apply-application-guide/due-dates-and-submission-policies/due-dates.htm) (<https://grants.nih.gov/grants/how-to-apply-application-guide/due-dates-and-submission-policies/due-dates.htm>), marked with an asterisk.

Application Due Dates			Review and Award Cycles		
New	Renewal / Resubmission / Revision (as allowed)	AIDS - New/Renewal/Resubmission/Revision, as allowed	Scientific Merit Review	Advisory Council Review	Earliest Start Date
September 05, 2026 *	September 05, 2026 *	Not Applicable	November 2026	January 2027	April 2027
January 05, 2027 *	January 05, 2027 *	Not Applicable	March 2027	May 2027	July 2027
April 05, 2027 *	April 05, 2027 *	Not Applicable	July 2027	August 2027	December 2027

All applications are due by 5:00 PM local time of applicant organization.

Applicants are encouraged to apply early to allow adequate time to make any corrections to errors found in the application during the submission process by the due date.

No late applications will be accepted for this Notice of Funding Opportunity (NOFO).

Required Application Instructions

It is critical that applicants follow the SBIR/STTR (B) Instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400), except where instructed to do otherwise (in this NOFO or in a Notice from the [NIH Guide for Grants and Contracts \(http://grants.nih.gov/grants/guide/uri_redirect.htm?id=11164\)](http://grants.nih.gov/grants/guide/uri_redirect.htm?id=11164)).

Conformance to all requirements (both in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400) and the NOFO) is required and strictly enforced. Applicants must read and follow all application instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400) as well as any program-specific instructions noted in Section IV. When the program-specific instructions deviate from those in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400), follow the program-specific instructions.

Applications that do not comply with these instructions may be delayed or not accepted for review.

There are several options available to submit your application through Grants.gov to NIH and Department of Health and Human Services partners. You **must** use one of these submission options to access the application forms for this opportunity.

1. Use the [NIH ASSIST system \(https://public.era.nih.gov/assist/landing.era?tabId=0819b5fc-46b7-4f02-b6b7-127e5a4e19fa\)](https://public.era.nih.gov/assist/landing.era?tabId=0819b5fc-46b7-4f02-b6b7-127e5a4e19fa) to prepare, submit and track your application online.
2. Use an institutional system-to-system (S2S) solution to prepare and submit your application to Grants.gov and [eRA Commons \(https://public.era.nih.gov/commons/\)](https://public.era.nih.gov/commons/) to track your application. Check with your institutional officials regarding availability.
3. Use [Grants.gov \(https://grants.gov/search-grants?oppStatuses=closed|archived|posted|forecasted&fon=PA-25-301\)](https://grants.gov/search-grants?oppStatuses=closed|archived|posted|forecasted&fon=PA-25-301) Workspace to prepare and submit your application and [eRA Commons \(http://public.era.nih.gov/commons/\)](http://public.era.nih.gov/commons/) to track your application.

Part 2. Full Text of Announcement

Section I. Notice of Funding Opportunity Description

Background

The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs (also known as America's Seed Fund) are major sources of early-stage funding for U.S. technology development and commercialization. By providing awards to SBCs that partner with non-profit research institutions, the STTR program supports the commercialization of innovative technologies and strengthens both U.S. small businesses and research communities. The National Institutes of Health (NIH) uses these programs to help US-owned and operated small businesses develop promising technologies and products that support the NIH mission to enhance health, lengthen life, and reduce illness and disability. NIH is required to set aside 0.45% of its extramural research budget for the STTR program.

What this NOFO supports

This NOFO supports a small business to do the research and development (R&D) needed to develop a commercial product in partnership with a non-profit research institution. STTR projects are required to have a formal collaboration with a nonprofit research institution, such as a university. The Program Director/Principal investigator (PD/PI) may be employed with either the small business or the partnering nonprofit research institution. Regardless of the PD/PI employment, the award is always made to the small business. See eligibility requirements in **Section III**.

For projects that do not depend on such a collaboration, a small business can apply to SBIR NOFO [PA-27-100 \(https://simpler.grants.gov/opportunity/d1ba49e5-3684-4420-849a-ab2330ec493e\)](https://simpler.grants.gov/opportunity/d1ba49e5-3684-4420-849a-ab2330ec493e). Applicants are strongly encouraged to [contact program staff \(https://grants.nih.gov/funding/funding-categories/small-business/ico-funding-considerations\)](https://grants.nih.gov/funding/funding-categories/small-business/ico-funding-considerations) prior to applying to help choose the best funding opportunity for their project.

The STTR Program supports projects through multiple phases:

- **Phase I:** Establish the technical merit and feasibility of the proposed R&D.
- **Phase II:** Continue R&D to advance toward commercialization.

After Phase II, NIH expects small business concerns (SBCs) to fully commercialize the product or technology using non-SBIR/STTR funds (federal or non-federal).

This NOFO accepts STTR Phase I, Phase II, Direct to Phase II (NIH only), and Fast-Track (NIH-only), grant applications from eligible United States SBCs.

NIH Fast-Track: The NIH Fast-Track allows both Phase I and Phase II of a project to be submitted and reviewed together as one application to reduce or eliminate the funding gap between phases.

NIH Direct to Phase II: Small businesses that have already demonstrated scientific and technical merit and feasibility but have not received a Phase I SBIR or STTR for that project, can apply for a Direct to Phase II award. The NIH will accept Direct to Phase II applications regardless of the funding source for the work on which the proposed Phase II research is based. Direct to Phase II awards should be submitted as "New" applications and not continuations ("Renewal") of Phase I SBIR or STTR projects.

Small businesses that are eligible to submit a Phase II application for a project that was supported with a Phase I SBIR or STTR award are expected to submit the regular Phase II application as a "Renewal" of the awarded Phase I SBIR or STTR project. Only one Phase II application may be awarded for a specific project supported by a Phase I award. Phase IIB Strategic Breakthrough grant applications should be submitted to [PA-27-101 \(https://simpler.grants.gov/opportunity/a44b38f2-6d15-4b5b-b1df-788a730bb203\)](https://simpler.grants.gov/opportunity/a44b38f2-6d15-4b5b-b1df-788a730bb203) (SBIR).

Scientific and Technical Scope

STTR applications should propose a feasibility and/or R&D study that contributes to the missions of any NIH,CDC or FDA components participating in this NOFO. See [NIH Institutes, Centers, and Offices \(https://grants.nih.gov/funding/find-a-fit-for-your-research/nih-institutes-centers-offices\)](https://grants.nih.gov/funding/find-a-fit-for-your-research/nih-institutes-centers-offices) and [Small Business Funding Considerations and Contacts \(https://grants.nih.gov/funding/funding-categories/small-business/ico-funding-considerations\)](https://grants.nih.gov/funding/funding-categories/small-business/ico-funding-considerations) for Institute, Center, and Office (ICO) specific missions, interest areas, funding priorities, and funding considerations.

Staff within the NIH's Center for Scientific Review (CSR) office, the single receiving point for all NIH grant applications, will assign all applications to the most appropriate participating component. Applicants are not required to identify a potential awarding component prior to submission of the application but may request one on the Assignment Request Form. Applicants are encouraged to contact the appropriate NIH Institute, Center, or Office they believe is the best fit for their proposed research prior to submission.

See the [NIH Director's Statement of Priorities \(https://www.nih.gov/about-nih/nih-director/statements/advancing-nih-mission-through-unified-strategy\)](https://www.nih.gov/about-nih/nih-director/statements/advancing-nih-mission-through-unified-strategy) (<https://www.nih.gov/about-nih/nih-director/statements/advancing-nih-mission-through-unified-strategy>) ([file:///C:/Users/CTYokanovich1/AppData/Local/Microsoft/Windows/NetCache/Content.Outlook/45M1QXFB/\(https://www.nih.gov/about-nih/nih-director/statements/advancing-nih-mission-through-unified-strategy\)\)](file:///C:/Users/CTYokanovich1/AppData/Local/Microsoft/Windows/NetCache/Content.Outlook/45M1QXFB/(https://www.nih.gov/about-nih/nih-director/statements/advancing-nih-mission-through-unified-strategy)))), entitled "Advancing NIH's Mission Through a Unified Strategy."

Applicants and recipients are encouraged to also refer to the [Make Our Children Healthy Again Strategy \(https://www.whitehouse.gov/maha/\)](https://www.whitehouse.gov/maha/) (<https://www.whitehouse.gov/maha/>) when structuring their applications. See also the [OMB-OSTP Research and Development Budget Priorities memo M-25-34/NSTM- 2 \(https://www.whitehouse.gov/wp-content/uploads/2025/09/FY27-OMB-OSTP-RD-Priorities-Memo-FINALSIGNED.pdf\)](https://www.whitehouse.gov/wp-content/uploads/2025/09/FY27-OMB-OSTP-RD-Priorities-Memo-FINALSIGNED.pdf).

Further information about the SBIR and STTR programs can be found at <https://seed.nih.gov> (<https://seed.nih.gov>). [Frequently asked questions \(https://seed.nih.gov/faqs\)](https://seed.nih.gov/faqs) are available to assist applicants and can answer many basic questions about the program.

Investigators proposing NIH-defined clinical trials may refer to the [Research Methods Resources \(https://researchmethodsresources.nih.gov/\)](https://researchmethodsresources.nih.gov/) website for information about developing statistical methods and study designs.

Applications Not Responsive to this NOFO

- The following types of applications are not responsive to this NOFO and will not be reviewed:
- Applications to this Parent NOFO may include [clinical trial\(s\) \(https://grants.nih.gov/policy-and-compliance/policy-topics/clinical-trials/definition\)](https://grants.nih.gov/policy-and-compliance/policy-topics/clinical-trials/definition). However, the following Institutes and Centers **DO NOT ACCEPT** clinical trials under this NOFO and applications that propose a clinical trial and only align with the mission of one of the following components are not responsive to this NOFO and will not be reviewed:
 - National Institute of Allergy and Infectious Diseases ([NIAID \(https://www.niaid.nih.gov/\)](https://www.niaid.nih.gov/))
 - National Institute of Arthritis and Musculoskeletal and Skin Diseases ([NIAMS \(https://www.niams.nih.gov/\)](https://www.niams.nih.gov/))
 - National Institute of Dental and Craniofacial Research ([NIDCR \(https://www.nidcr.nih.gov/\)](https://www.nidcr.nih.gov/))
 - National Institute of Diabetes and Digestive and Kidney Diseases ([NIDDK \(https://www.niddk.nih.gov/\)](https://www.niddk.nih.gov/))
 - National Institute on Minority Health and Health Disparities ([NIMHD \(https://www.nimhd.nih.gov/\)](https://www.nimhd.nih.gov/))
 - National Center for Advancing Translational Sciences ([NCATS \(https://ncats.nih.gov/\)](https://ncats.nih.gov/))
 - Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs ([ORIP \(https://orip.nih.gov/\)](https://orip.nih.gov/))

See Section VIII. Other Information for award authorities and regulations.

Section II. Award Information

Funding Instrument

Grant: A [financial assistance](#) mechanism providing money, property, or both to an eligible entity to carry out an approved project or activity.

Application Types Allowed

- New (Phase I, Fast-Track, Direct Phase II)
- Renewal (Phase II)
- Resubmission (Direct Phase II, Fast-Track, Phase I, Phase II)
- Revision (Direct Phase II, Fast-Track, Phase I, Phase II)

The [OER Glossary \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11116\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11116) and the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) provide details on these application types. Only those application types listed here are allowed for the NOFO.

Clinical Trial?

Optional: Accepting applications that either propose or do not propose clinical trial(s)

[Need help determining whether you are doing a clinical trial? \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82370\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82370)

Not all participating Institutes and Centers accept clinical trials under this NOFO. See "Applications Not Responsive to this NOFO" Information in Section 1. Notice of Funding Opportunity Description.

Funds Available and Anticipated Number of Awards

The number of awards is contingent upon NIH appropriations and the submission of a sufficient number of meritorious applications.

Award Budget

Total funding support (direct costs, indirect costs, fee) normally may not exceed the [current SBA budgetary guidelines \(https://seed.nih.gov/small-business-funding/small-business-program-basics/understanding-sbir-sttr#Budget-and-timelines-for-funding\)](https://seed.nih.gov/small-business-funding/small-business-program-basics/understanding-sbir-sttr#Budget-and-timelines-for-funding). For specific topics, NIH may exceed these total award amounts. For approved waiver topics, see [Small Business Funding Considerations and Contacts \(https://grants.nih.gov/funding/funding-categories/small-business/ico-funding-considerations\)](https://grants.nih.gov/funding/funding-categories/small-business/ico-funding-considerations).

Budget guidelines can vary by participating component. Total funding support for the participating components normally may not exceed the budget guidelines in the table below. Applicants are strongly encouraged to contact the appropriate participating component(s) prior to submitting any application in excess of the [SBA budgetary guidelines \(https://seed.nih.gov/small-business-funding/small-business-program-basics/understanding-sbir-sttr#Budget-and-timelines-for-funding\)](https://seed.nih.gov/small-business-funding/small-business-program-basics/understanding-sbir-sttr#Budget-and-timelines-for-funding) early in the application planning process. See [NIH Institutes, Centers, and Offices \(https://grants.nih.gov/funding/find-a-fit-for-your-research/nih-institutes-centers-offices\)](https://grants.nih.gov/funding/find-a-fit-for-your-research/nih-institutes-centers-offices) for Institute, Center, and Office (ICO) specific missions, interest areas, funding priorities, and funding considerations. In all cases, applicants should propose a budget that is reasonable and appropriate for completion of the research project.

NIH Participating Component	Phase I Budget	Phase II Budget
National Cancer Institute	\$700,000.00	\$2,500,000.00
National Eye Institute	\$400,000.00	SBA Guideline
National Heart, Lung, and Blood Institute	\$400,000.00	\$3,000,000.00
National Human Genome Research Institute	\$400,000.00	SBA Guideline
National Institute on Aging	\$700,000.00	\$3,000,000.00
National Institute on Alcohol Abuse and Alcoholism	\$400,000.00	\$2,500,000.00
National Institute of Allergy and Infectious Diseases	\$700,000.00	\$3,000,000.00
National Institute of Arthritis and Musculoskeletal and Skin Diseases	SBA Guideline	SBA Guideline
National Institute of Biomedical Imaging and Bioengineering	SBA Guideline	SBA Guideline
Eunice Kennedy Shriver National Institute of Child Health and Human Development	\$400,000.00	\$2,500,000.00
National Institute on Deafness and Other Communication Disorders	\$400,000.00	\$3,000,000.00
National Institute of Dental and Craniofacial Research	SBA Guideline	SBA Guideline
National Institute of Diabetes and Digestive and Kidney Diseases	\$400,000.00	\$2,500,000.00
National Institute on Drug Abuse	\$400,000.00	\$3,000,000.00
National Institute of Environmental Health Sciences	SBA Guideline	SBA Guideline
National Institute of General Medical Sciences	\$700,000.00	\$3,000,000.00
National Institute of Mental Health	\$700,000.00	\$3,000,000.00
National Institute of Neurological Disorders and Stroke	\$700,000.00	\$3,000,000.00
National Institute of Nursing Research	\$400,000.00	\$2,500,000.00
National Institute on Minority Health and Health Disparities	SBA Guideline	SBA Guideline
National Library of Medicine	SBA Guideline	SBA Guideline
National Center for Complementary and Integrative Health	\$700,000.00	SBA Guideline
National Center for Advancing Translational Sciences	SBA Guideline	SBA Guideline
Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs	SBA Guideline	SBA Guideline
Office of Research on Women's Health	SBA Guideline	\$2,500,000.00

Award Project Period

According to statutory guidelines, award periods normally may not exceed 1 year for Phase I and 2 years for Phase II. Applicants are encouraged to propose a project duration period that is reasonable and appropriate for completion of the research project.

NIH grants policies as described in the [NIH Grants Policy Statement \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120) will apply to the applications submitted and awards made from this NOFO.

Section III. Eligibility Information

1. Eligible Applicants

Eligible Organizations

Only United States small business concerns (SBCs) are eligible to submit applications for this opportunity. A small business concern is one that, at the time of award of Phase I and Phase II, meets *all* of the following criteria:

1. Is organized for profit, with a place of business located in the United States, which operates primarily within the United States or which makes a significant contribution to the United States economy through payment of taxes or use of American products, materials or labor.
2. Is in the legal form of an individual proprietorship, partnership, limited liability company, corporation, joint venture, association, trust or cooperative, except that where the form is a joint venture, there must be less than 50 percent participation by foreign business entities in the joint venture.
3. Must be one of the following:
 - a. Be a concern which is more than 50% directly owned and controlled by one or more individuals (who are citizens or permanent resident aliens of the United States), other business concerns (each of which is more than 50% directly owned and controlled by individuals who are citizens or permanent resident aliens of the United States), an Indian tribe, ANC or NHO (or a wholly owned business entity of such tribe, ANC or NHO), or any combination of these; OR
 - b. Be a joint venture in which each entity to the joint venture must meet the requirements set forth in paragraph 3(a) of this section.
4. Has, including its affiliates, not more than 500 employees.

If an Employee Stock Ownership Plan owns all or part of the concern, each stock trustee and plan member is considered an owner.

If a trust owns all or part of the concern, each trustee and trust beneficiary is considered an owner.

Definitions:

- Hedge fund has the meaning given that term in section 13(h)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1851(h)(2)). The hedge fund must have a place of business located in the United States and be created or organized in the United States, or under the law of the United States or of any State.
- Portfolio company means any company that is owned in whole or part by a venture capital operating company, hedge fund, or private equity firm.
- Private equity firm has the meaning given the term "private equity fund" in section 13(h)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1851(h)(2)). The private equity firm must have a place of business located in the United States and be created or organized in the United States, or under the law of the United States or of any State.
- Venture capital operating company means an entity described in § 121.103(b)(5)(i), (v), or (vi). The venture capital operating company must have a place of business located in the United States and be created or organized in the United States, or under the law of the United States or of any State.
- ANC means Alaska Native Corporation.
- NHO means Native Hawaiian Organization.

SBCs must also meet the other regulatory requirements found in 13 C.F.R. Part 121. Business concerns, other than investment companies licensed, or state development companies qualifying under the Small Business Investment Act of 1958, 15 U.S.C. 661, et seq., are affiliates of one another when either directly or indirectly, (a) one concern controls or has the power to control the other; or (b) a third-party/parties controls or has the power to control both. Business concerns include, but are not limited to, any individual (sole proprietorship) partnership, corporation, joint venture, association, or cooperative. The [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/uri_redirect.htm?id=82400) should be referenced for detailed eligibility information.

Small business concerns that are more than 50% owned by multiple venture capital operating companies, hedge funds, private equity firms, or any combination of these are NOT eligible to apply to the NIH STTR program.

Performance Benchmark Requirements

Phase I to Phase II Transition Rate Benchmark: In accordance with guidance from the SBA, the HHS SBIR/STTR Program is implementing the Phase I to Phase II Transition Rate benchmark required by the SBIR/STTR Reauthorization Act of 2011 and the SBIR and STTR Extension Act of 2022. The benchmark establishes a minimum number of Phase II awards the company must have received relative to a given number of Phase I awards received during the 5-fiscal year time period. The Transition Rate is calculated as the total number of SBIR and STTR Phase II awards a company received during the past 5 fiscal years divided by the total number of SBIR and STTR Phase I awards it received during the past 5 fiscal years excluding the most recently completed year. The Transition Rate requirement, agreed upon and established by all 11 SBIR agencies, was published for public comment in a Federal Register Notice on October 16, 2012 (77 FR 63410) and amended on May 23, 2013 (78 FR 30951).

- For SBIR and STTR Phase I applicants that have received more than 20 Phase I awards over the past 5 fiscal years (excluding the most recently-completed fiscal year): Companies that do not meet or exceed the benchmark minimum Transition Rate of 0.25 will not be eligible to apply for a Phase I, Fast-Track, or Direct Phase II (if available) award for a period of one year from the date of the application submission. This requirement does not apply to companies that have received 20 or fewer Phase I awards over the prior 5-fiscal year period.
- For application deadlines that fall on or after April 5, 2023: For SBIR and STTR Phase I applicants that have received more than 50 Phase I awards over the past 5 fiscal years (excluding the most recently-completed fiscal year): Companies that do not meet or exceed the benchmark minimum Transition Rate of 0.5 will not be eligible to receive more than 20 total Phase I and Phase II awards for a period of one year from the date on which such determination is made. This requirement does not apply to companies that have received 50 or fewer Phase I awards over the 5-fiscal year period.

On June 1 of each year, SBA will identify the companies that fail to meet minimum performance requirements. SBA calculates individual company Phase I to Phase II Transition Rates using SBIR and STTR award information across all federal agencies. SBA will notify companies and the relevant officials at the participating agencies. More information on the Phase I to Phase II Transition Rate requirement is available at SBIR.gov.

Phase II to Commercialization Benchmark: In accordance with guidance from the SBA, the HHS SBIR/STTR Programs are implementing the Phase II to Commercialization Rate benchmark for Phase I applicants, as required by the SBIR/STTR Reauthorization Act of 2011 and the SBIR and STTR Extension Act of 2022. The Commercialization Rate Benchmark was published in a Federal Register notice on August 8, 2013 ([78 FR 48537 \(http://www.gpo.gov/fdsys/pkg/FR-2013-08-08/pdf/2013-19247.pdf\)](http://www.gpo.gov/fdsys/pkg/FR-2013-08-08/pdf/2013-19247.pdf)), with a reopening of the comment period published on September 26, 2013 (78 FR 59410).

- For companies that have received more than 15 Phase II awards from all agencies over the past 10 fiscal years (excluding the two most recently completed fiscal year): Companies that meet this criterion must show an average of at least \$100,000 in revenues and/or investments per Phase II award or at least 0.15 (15%) patents per Phase II award resulting from these awards during the past 10- fiscal year period. Applicants that fail this benchmark will not be eligible to apply for New Phase I, Fast-track or Direct Phase II (if applicable) awards for a period of one year. This requirement does not apply to companies that have received 15 or fewer Phase II awards over the 10-fiscal year period, excluding the two most recently completed fiscal years.
- For application deadlines that fall on or after April 5, 2023: For companies that have received more than 50 Phase II awards from all agencies over the past 10-fiscal years (excluding the two most recently completed Fiscal Year): Companies that meet this criterion must show an average of at least \$250,000 of aggregated sales and investment per Phase II award over the past 10-fiscal year period. Applicants that fail this benchmark will not be eligible to receive more than 20 total Phase I and Phase II awards for a period of one year from the date on which such determination is made. This requirement does not apply to companies that have received 50 or fewer Phase II awards over the 10-fiscal year period, excluding the two most recently completed fiscal years.

- For application deadlines that fall on or after April 5, 2023: For companies that have received more than 100 Phase II awards from all agencies over the past 10-fiscal years (excluding the two most recently completed Fiscal Year): Companies that meet this criterion must show an average of at least \$450,000 of aggregated sales and investment per Phase II award over the past 10-fiscal year period. Applicants that fail this benchmark will not be eligible to receive more than 20 total Phase I and Phase II awards for a period of one year from the date on which such determination is made. This requirement does not apply to companies that have received 100 or fewer Phase II awards over the 10-fiscal year period, excluding the two most recently completed fiscal years.

Foreign Organizations/International Collaborations

Non-domestic (non-U.S.) Entities (Foreign Organizations) **are not** eligible to apply.

Non-domestic (non-U.S.) components of U.S. Organizations **are not** eligible to apply.

Unfunded international collaborations or unfunded foreign components, as [defined in the NIH Grants Policy Statement \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11118\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11118), **may** be allowed.

NIH will no longer issue awards (i.e., new, renewal, or non-competing continuation) to domestic or foreign entities that involve foreign subawards/subcontracts. All NIH-funded research involving foreign subawards/subcontracts must be submitted in response to a NOFO that is specifically designated for funded international collaborations. See [NIH Grants Policy Statement 16.8 Collaborative International Research Awards \(https://grants.nih.gov/grants/policy/nihgps/HTML5/section_16/16.8_collab_int_res_awards.htm\)](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_16/16.8_collab_int_res_awards.htm).

Applications involving foreign subawards/subcontracts submitted in response to this NOFO will be deemed noncompliant and will not be considered for funding. This policy applies to all monetary international collaborations resulting in foreign subawards/subcontracts, however, it does not preclude unfunded international collaborations or [foreign components \(https://grants.nih.gov/grants/policy/nihgps/HTML5/section_1/1.2_definition_of_terms.htm\)](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_1/1.2_definition_of_terms.htm), funding for foreign consultants, or procurement of unique equipment or supplies from foreign vendors.

Required Registrations

Applicant Organizations

Applicant organizations must complete and maintain the following registrations as described in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) to be eligible to apply for or receive an award. All registrations must be completed prior to the application being submitted. Registration can take 6 weeks or more, so applicants should begin the registration process as soon as possible. Failure to complete registrations in advance of a due date is not a valid reason for a late submission, please reference [NIH Grants Policy Statement 2.3.9.2 Electronically Submitted Applications \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=82423\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=82423) for additional information.

- [System for Award Management \(SAM\) \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82390\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82390) – Applicants must complete and maintain an active registration, **which requires renewal at least annually**. The renewal process may require as much time as the initial registration. SAM registration includes the assignment of a Commercial and Government Entity (CAGE) Code for domestic organizations which have not already been assigned a CAGE Code.
 - Unique Entity Identifier (UEI) – A UEI is issued as part of the SAM.gov registration process. The same UEI must be used for all registrations, as well as on the grant application.
- [SBA Company Registry \(https://app.www.sbir.gov/company-registration/overview\)](https://app.www.sbir.gov/company-registration/overview) – See [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) for instructions on how to register and how to attach proof of registration to your application package. Applicants must have a UEI to complete this registration. SBA Company registration is **NOT** required before SAM, Grants.gov or eRA Commons registration.
- [eRA Commons \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=11123\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=11123) – Once the unique organization identifier is established, organizations can register with eRA Commons in tandem with completing their Grants.gov registration; all registrations must be in place by time of submission. eRA Commons requires organizations to identify at least one Signing Official (SO) and at least one Program Director/Principal Investigator (PD/PI) account in order to submit an application.
- [Grants.gov \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=82300\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=82300) – Applicants must have an active SAM registration in order to complete the Grants.gov registration.

Program Directors/Principal Investigators (PD(s)/PI(s))

All PD(s)/PI(s) must have an eRA Commons account. PD(s)/PI(s) should work with their organizational officials to either create a new account or to affiliate their existing account with the applicant organization in eRA Commons. If the PD/PI is also the organizational Signing Official, they must have two distinct eRA Commons accounts, one for each role. Obtaining an eRA Commons account can take up to 2 weeks.

All PD(s)/PI(s) must be registered with [ORCID \(https://orcid.org/\)](https://orcid.org/). The personal profile associated with the PD(s)/PI(s) eRA Commons account must be linked to a valid ORCID ID. For more information on linking an ORCID ID to an eRA Commons personal profile see the [ORCID topic in our eRA Commons online help \(https://era.nih.gov/erahelp/Commons/default.htm#orcid.htm%3FTocPath%3D29\)](https://era.nih.gov/erahelp/Commons/default.htm#orcid.htm%3FTocPath%3D29).

Eligible Individuals (Program Director/Principal Investigator)

Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director(s)/Principal Investigator(s) (PD(s)/PI(s)) is invited to work with his/her organization to develop an application for support.

For institutions/organizations proposing multiple PDs/PIs, visit the Multiple Program Director/Principal Investigator Policy and submission details in the Senior/Key Person Profile (Expanded) Component of the SF424 (R&R) Application Guide.

For the STTR program, the PD(s)/PI(s) may be employed with the SBC or the single, "partnering" non-profit research institution as long as s/he has a formal appointment with or commitment to the applicant SBC, which is characterized by an official relationship between the SBC and that individual.

Each PD/PI must commit a minimum of 10% effort to the project and the PD/PI must have a formal appointment with or commitment to the applicant small business concern, which is characterized by an official relationship between the small business concern and that individual. Such a relationship does not necessarily involve a salary or other form of remuneration.

The [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) should be referenced for specific details on eligibility requirements. For institutions/organizations proposing multiple PDs/PIs, see Multiple Principal Investigators section of the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400).

2. Cost Sharing

This NOFO does not require cost sharing as defined in the [NIH Grants Policy Statement Section 1.2 Definition of Terms \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11126\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11126).

3. Additional Information on Eligibility

Number of Applications

Applicant organizations may submit more than one application, provided that each application is scientifically distinct.

NIH will not accept similar grant applications with essentially the same research focus from the same applicant organization. This includes derivative or multiple applications that propose to develop a single product or service that, with non-substantive modifications, can be applied to a variety of purposes. Applicants may **not** simultaneously submit identical/essentially identical applications under both this funding opportunity and any other HHS funding opportunity, including the SBIR and STTR Parent announcements.

The NIH will not accept duplicate or highly overlapping applications under review at the same time. [NIH Grants Policy Statement 2.3.7.4 Submission of Resubmission Application](http://grants.nih.gov/grants/guide/redirect.htm?id=82415). (<http://grants.nih.gov/grants/guide/redirect.htm?id=82415>) This means that the NIH will not accept:

- A new (A0) application that is submitted before issuance of the summary statement from the review of an overlapping new (A0) or resubmission (A1) application.
- A resubmission (A1) application that is submitted before issuance of the summary statement from the review of the previous new (A0) application.
- An application that has substantial overlap with another application pending appeal of initial peer review. (see NIH Grants Policy Statement [2.3.9.4 Similar, Essentially Identical, or Identical Applications](http://grants.nih.gov/grants/guide/redirect.htm?id=82423) (<http://grants.nih.gov/grants/guide/redirect.htm?id=82423>)).

A Phase I awardee may submit a Phase II application either before or after expiration of the Phase I budget period, unless the awardee elects to submit a Phase I and Phase II application concurrently under the Fast-Track procedure. To maintain eligibility to seek Phase II support, a Phase I awardee should submit a Phase II application, within the first six due dates following the expiration of the Phase I budget period. Recipients of Phase I grants, cooperative agreements, or contracts are eligible to submit Phase II grant applications for this opportunity in accordance with each awarding component's guidance.

Contractual/Consortium Arrangements

In STTR Phase I and STTR Phase II, at least 40% of the research or analytical effort must be performed by the small business concern and at least 30% of the research or analytical effort must be performed by the single, "partnering" research institution. A "partnering" research institution is defined as (1) A non-profit institution as defined in section 4(3) of the Stevenson-Wylder Technology Innovation Act of 1980; or (2) A Federally-funded R/R&D center (FFRDC) as identified by the National Science Foundation (NSF) (<https://ncses.nsf.gov/resource/master-gov-lists-ffrdc>). The basis for determining the percentage of work to be performed by each of the cooperative parties will be the total of direct, F&A/indirect costs, and fee attributable to each party, unless otherwise described and justified in "Consortium/Contractual Arrangements" of the PHS 398 Research Plan component of the SF424 (R&R) application forms.

A small business concern may subcontract a portion of its STTR award to a Federal laboratory within the limits above. A Federal laboratory, as defined in 15 U.S.C. § 3703, means any laboratory, any federally funded research and development center, or any center established under 15 U.S.C. §§ 3705 & 3707 that is owned, leased, or otherwise used by a Federal agency and funded by the Federal Government, whether operated by the Government or by a contractor.

The basis for determining the percentage of work to be performed by each of the cooperative parties in Phase I or Phase II will be the total of the requested costs attributable to each party, unless otherwise described and justified in "Consortium/Contractual Arrangements" of the PHS 398 Research Plan component of SF424 (R&R) application forms.

Additional details are contained in the [How to Apply – Application Guide](https://grants.nih.gov/grants/guide/redirect.htm?id=82400) (<https://grants.nih.gov/grants/guide/redirect.htm?id=82400>).

Section IV. Application and Submission Information

1. Requesting an Application Package

The application forms package specific to this opportunity must be accessed through ASSIST, Grants.gov Workspace or an institutional system-to-system solution. Links to apply using ASSIST or Grants.gov Workspace are available in Part 1 of this NOFO. See your administrative office for instructions if you plan to use an institutional system-to-system solution.

2. Content and Form of Application Submission

It is critical that applicants follow the SBIR/STTR (B) Instructions in the [How to Apply – Application Guide](https://grants.nih.gov/grants/guide/redirect.htm?id=82400) (<https://grants.nih.gov/grants/guide/redirect.htm?id=82400>), except where instructed in this notice of funding opportunity to do otherwise (in this NOFO, in a [policy notice](https://grants.nih.gov/grants/guide/redirect.php?id=11163) (<https://grants.nih.gov/grants/guide/redirect.php?id=11163>), or other notice from [NIH Guide for Grants and Contracts](https://grants.nih.gov/grants/guide/redirect.php?id=11164) (<https://grants.nih.gov/grants/guide/redirect.php?id=11164>)). Conformance to the requirements in the [How to Apply – Application Guide](https://grants.nih.gov/grants/guide/redirect.htm?id=82400) (<https://grants.nih.gov/grants/guide/redirect.htm?id=82400>) is required and strictly enforced. Applications that are out of compliance with these instructions may be delayed or not accepted for review.

Page Limitations

All page limitations described in the [How to Apply – Application Guide](https://grants.nih.gov/grants/guide/redirect.htm?id=82400) (<https://grants.nih.gov/grants/guide/redirect.htm?id=82400>) and the [Table of Page Limits](https://grants.nih.gov/grants/guide/redirect.htm?id=11133) ([http://grants.nih.gov/grants/guide/redirect.htm?id=11133](https://grants.nih.gov/grants/guide/redirect.htm?id=11133)) must be followed.

Instructions for Application Submission

The following section supplements the instructions found in the [How to Apply – Application Guide](https://grants.nih.gov/grants/guide/redirect.htm?id=82400) (<https://grants.nih.gov/grants/guide/redirect.htm?id=82400>) and should be used for preparing an application to this NOFO.

SF424(R&R) Cover

All instructions in the [How to Apply – Application Guide](https://grants.nih.gov/grants/guide/redirect.htm?id=82400) (<https://grants.nih.gov/grants/guide/redirect.htm?id=82400>) must be followed.

SF424(R&R) Project/Performance Site Locations

All instructions in the [How to Apply – Application Guide](https://grants.nih.gov/grants/guide/redirect.htm?id=82400) (<https://grants.nih.gov/grants/guide/redirect.htm?id=82400>) must be followed.

SF424(R&R) Other Project Information

All instructions in the [How to Apply – Application Guide](https://grants.nih.gov/grants/guide/redirect.htm?id=82400) (<https://grants.nih.gov/grants/guide/redirect.htm?id=82400>) must be followed.

Other Attachments:

Regulatory Plan (Required for Clinical Trial Applications, 2-Page Maximum)

Applications that propose a clinical trial must include the Regulatory Plan attachment. Applications that DO NOT propose a clinical trial must NOT submit the Regulatory Plan attachment.

Name the PDF attachment "RegulatoryPlan.pdf" and attach it in the Other Attachments Section of the "Research and Related Other Project Information" form.

Applicants proposing a clinical trial must provide a regulatory plan describing the regulatory pathway that is being or will be pursued and a timeline for achieving regulatory approval with discrete milestones. At minimum, the plan should address regulatory requirements to conduct the proposed clinical trial, but a discussion of requirements for Marketing Approval is strongly encouraged.

Applicants should provide details of their interaction with the appropriate regulatory authorities in the description of their Regulatory Plan. This should include the regulatory authority contact and date of interaction. Applicants should describe any outside assistance they have obtained or plan to obtain for developing and achieving the proposed Regulatory Plan.

Please note: Applicants may be required to submit evidence that they have contacted the regulatory authority and that their research plan and objectives follow the relevant requirements or guidance of that authority. This documentation (letters, emails and minutes) is NOT submitted with the application but must be furnished upon request of the NIH awarding component. Examples that provide evidence of appropriate interactions are letters or emails between the company and the appropriate FDA (or other regulatory authority) personnel, meeting minutes clarifying the evidentiary requirements to support clinical development or a marketing application, or documentation of IRB determination of non-significant risk.

SF424(R&R) Senior/Key Person Profile Expanded

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

R&R Budget

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

R&R Subaward Budget

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

PHS 398 Cover Page Supplement

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

PHS 398 Research Plan

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

Resource Sharing Plans:

Individuals are required to comply with the instructions for the Resource Sharing Plans as provided in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400).

Other Plan(s)

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed, with the following additional instructions:

- A Data Management and Sharing Plan is not applicable for this NOFO.

Appendix:

Note that Phase I STTR Appendix materials are not permitted. Only limited items are allowed in the Appendix of other small business applications. The instructions for the Appendix of the Research Plan are described in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400); any instructions provided here are in addition to the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) Instructions.

SBIR/STTR Information Form

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

Note that a Commercialization Plan is not allowed for a Phase I STTR application.

PHS Human Subjects and Clinical Trials Information

When involving human subjects research, clinical research, and/or NIH-defined clinical trials follow all instructions for the PHS Human Subjects and Clinical Trials Information form in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400), with the following additional instructions:

If you answered "Yes" to the question "Are Human Subjects Involved?" on the R&R Other Project Information form, you must include at least one human subjects study record using the **Study Record: PHS Human Subjects and Clinical Trials Information** form or **Delayed Onset Study** record.

Study Record: PHS Human Subjects and Clinical Trials Information

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

Delayed Onset Study

Note: [Delayed onset \(https://grants.nih.gov/grants/glossary.htm#DelayedOnsetStudy\)](https://grants.nih.gov/grants/glossary.htm#DelayedOnsetStudy) does NOT apply to a study that can be described but will not start immediately (i.e., delayed start). All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

PHS Assignment Request Form

All instructions in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400) must be followed.

3. Unique Entity Identifier and System for Award Management (SAM)

See Part 2. Section III.1 for information regarding the requirement for obtaining a unique entity identifier and for completing and maintaining active registrations in System for Award Management (SAM), eRA Commons, and Grants.gov

4. Submission Dates and Times

Part I. contains information about Key Dates and time. Applicants are encouraged to submit applications before the due date to ensure they have time to make any application corrections that might be necessary for successful submission. When a submission date falls on a weekend or [Federal holiday \(https://grants.nih.gov/grants/guide/url_redirect.html?id=82380\)](https://grants.nih.gov/grants/guide/url_redirect.html?id=82380), the application deadline is automatically extended to the next business day.

Organizations must submit applications to [Grants.gov \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11128\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11128) (the online portal to find and apply for grants across all Federal agencies). Applicants must then complete the submission process by tracking the status of the application in the [eRA Commons \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11123\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11123). NIH's electronic system for grants administration. NIH and Grants.gov systems check the application against many of the application instructions upon submission. Errors must be corrected and a changed/corrected application must be submitted to Grants.gov on or before the application due date and time. If a Changed/Corrected application is submitted after the deadline, the application will be considered late. Applications that miss the due date and time are subjected to the [NIH Grants Policy Statement Section 2.3.9.2 Electronically Submitted Applications \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=82423\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=82423).

Applicants are responsible for viewing their application before the due date in the eRA Commons to ensure accurate and successful submission.

Information on the submission process and a definition of on-time submission are provided in the [How to Apply – Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400).

5. Intergovernmental Review (E.O. 12372)

This initiative is not subject to [intergovernmental review \(https://grants.nih.gov/grants/policy/nihgps/html5/section_10/10.10.1_executive_orders.htm\)](https://grants.nih.gov/grants/policy/nihgps/html5/section_10/10.10.1_executive_orders.htm).

6. Funding Restrictions

All NIH awards are subject to the terms and conditions, cost principles, and other considerations described in the [NIH Grants Policy Statement \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120).

Pre-award costs are allowable only as described in the [NIH Grants Policy Statement \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11143\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11143).

7. Other Submission Requirements and Information

Applications must be submitted electronically following the instructions described in the SF424 (R&R) SBIR/STTR Application Guide. Paper applications will not be accepted.

Applicants must complete all required registrations before the application due date. Section III. Eligibility Information contains information about registration.

For assistance with your electronic application or for more information on the electronic submission process, visit [How to Apply – Application Guide \(https://nih.sharepoint.com/sites/OD-ODOPERASPB/CollaborationWorkspace-OPERADivisionalCoordination/Shared%20Documents/NOFO-NOSI%20Templates/NOFO%20Templates/September%202023/Templates%20September%202023/Updated%20to%20redirect%20URL,%20https://grants.nih.gov/grants/guide/url_redirect_id=82400\)](https://nih.sharepoint.com/sites/OD-ODOPERASPB/CollaborationWorkspace-OPERADivisionalCoordination/Shared%20Documents/NOFO-NOSI%20Templates/NOFO%20Templates/September%202023/Templates%20September%202023/Updated%20to%20redirect%20URL,%20https://grants.nih.gov/grants/guide/url_redirect_id=82400). If you encounter a system issue beyond your control that threatens your ability to complete the submission process on-time, you must follow the [Dealing with System Issues \(https://grants.nih.gov/grants/how-to-apply-application-guide/due-dates-and-submission-policies/dealing-with-system-issues.htm\)](https://grants.nih.gov/grants/how-to-apply-application-guide/due-dates-and-submission-policies/dealing-with-system-issues.htm) guidance. For assistance with application submission, contact the Application Submission Contacts in Section VII.

Important reminders:

All PD(s)/PI(s) must include their eRA Commons ID in the Credential field of the Senior/Key Person Profile form. Failure to register in the Commons and to include a valid PD/PI Commons ID in the credential field will prevent the successful submission of an electronic application to NIH.

The applicant organization must ensure that the unique entity identifier provided on the application is the same identifier used in the organization's profile in the eRA Commons and for the System for Award Management. Additional information may be found in the [How to Apply - Application Guide \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82400).

See [more tips \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11146\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11146) for avoiding common errors.

Upon receipt, applications will be evaluated for completeness and compliance with application instructions by the Center for Scientific Review and responsiveness by components of participating organizations, NIH. Applications that are incomplete, non-compliant and/or nonresponsive will not be reviewed.

Mandatory Disclosure

Recipients or subrecipients must submit any information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. See Mandatory Disclosures, [2 CFR 200.113 \(https://www.ecfr.gov/current/title-2/subtitle-A/chapter-II/part-200/subpart-B/section-200.113\)](https://www.ecfr.gov/current/title-2/subtitle-A/chapter-II/part-200/subpart-B/section-200.113) and [NIH Grants Policy Statement Section 4.1.35 \(https://grants.nih.gov/grants/policy/nihgps/html5/section_4/4.1.35_mandatory_disclosures.htm\)](https://grants.nih.gov/grants/policy/nihgps/html5/section_4/4.1.35_mandatory_disclosures.htm).

Send written disclosures to the NIH Chief Grants Management Officer listed on the Notice of Award for the IC that funded the award and to the [HHS Office of Inspector Grant Self Disclosure Program \(https://oig.hhs.gov/compliance/self-disclosure-info/hhs-oig-grant-self-disclosure-program/\)](https://oig.hhs.gov/compliance/self-disclosure-info/hhs-oig-grant-self-disclosure-program/) at [grantdisclosures@oig.hhs.gov \(mailto:grantdisclosures@oig.hhs.gov\)](mailto:grantdisclosures@oig.hhs.gov).

Post Submission Materials

Applicants are required to follow the instructions for post-submission materials, as described in [the policy \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=82299\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=82299).

Section V. Application Review Information

1. Criteria

Only the review criteria described below will be considered in the review process. Applications submitted to the NIH in support of the [NIH mission \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11149\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11149) are evaluated for scientific and technical merit through the NIH peer review system.

A proposed Clinical Trial application may include study design, methods, and intervention that are not by themselves innovative but address important questions or unmet needs. Additionally, the results of the clinical trial may indicate that further clinical development of the intervention is unwarranted or lead to new avenues of scientific investigation.

Overall Impact

Reviewers will provide an overall impact score to reflect their assessment of the likelihood for the project to exert a sustained, powerful influence on the research field(s) involved, in consideration of the following review criteria and additional review criteria (as applicable for the project proposed).

Scored Review Criteria

Reviewers will consider each of the review criteria below, as appropriate for the stage of research, in the determination of scientific merit, and give a separate score for each. An application does not need to be strong in all categories to be judged likely to have major scientific and commercial impact. For example, a project that by its nature is not innovative may be essential to advance a field.

Significance

Does the project and proposed product or service address an important problem, a critical barrier to progress, or unmet need in the field? Is the prior research that serves as the key support for the proposed project rigorous? If the aims of the project are achieved, how will scientific knowledge, technical capability, and/or clinical practice be improved? How will successful completion of the aims and commercialization of the resulting product or service change the concepts, methods, technologies, treatments, services, or preventative interventions that drive this field?

For a Phase I, does the proposed project have commercial potential to lead to a marketable product or service?

For Phase II (all types) and Fast-Track applications, does the Commercialization Plan demonstrate a high probability of commercialization? How strong is the described market opportunity in the Commercialization Plan including: (i) the product or service being developed; (ii) target customers; and (iii) how the product or service will solve a demonstrated customer need?

In addition, for applications involving clinical trials

Are the scientific rationale and need for a clinical trial to test the proposed hypothesis or intervention well supported by preliminary data, clinical and/or preclinical studies, or information in the literature or knowledge of biological mechanisms? For trials focusing on clinical or public health endpoints, is this clinical trial necessary for testing the safety, efficacy or effectiveness of an intervention that could lead to a change in clinical practice, community behaviors or health care policy? For trials focusing on mechanistic, behavioral, physiological, biochemical, or other biomedical endpoints, is this trial needed to advance the proposed product or service?

Investigator(s)

Are the PD(s)/PI(s), collaborators, and other researchers well suited to the project and will they provide a meaningful contribution to successfully complete the proposed aims? Do the PD(s)/PI(s) have appropriate experience and training to lead this project? If the project is collaborative or multi-PD/PI, do the investigators have complementary and integrated expertise; are their leadership approach, governance and organizational structure appropriate for the project? For projects in later stages, does the team have expertise to commercialize the product or service?

In addition, for applications involving clinical trials

With regard to the proposed leadership for the project, do the PD/PI(s) and key personnel have the expertise, experience, and ability to organize, manage and implement the proposed clinical trial and meet milestones and timelines? Do they have appropriate expertise in study coordination, data management and statistics? For a multicenter trial, is the

organizational structure appropriate and does the application identify a core of potential center investigators and staffing for a coordinating center?

Innovation

How does the proposed product or service represent an innovative solution to important problem, barrier to progress, or unmet need in research or clinical practice? Does the product or service proposed in application challenge and seek to shift current research or clinical practice paradigms? What meaningful competitive advantages does the end product or service proposed offer over existing approaches, instrumentation, or interventions or those in development?

For Phase II (all types) and Fast-Track applications, does the small business present a reasonable plan to create a temporal barrier against other companies aiming to provide a similar solution, including protecting the intellectual property relevant to the product or service being studied or used during the project?

In addition, for applications involving clinical trials

Does the design/research plan include innovative elements, as appropriate, that enhance its sensitivity, potential for information or potential to advance scientific knowledge or clinical practice?

Approach

Are the research aims appropriate for the current stage of development? Do the aims represent the necessary steps to further advance the development of the product or service? Are the overall strategy, methodology, and analyses well-reasoned and appropriate to accomplish the specific aims of the project? Have the investigators included any plans to address weaknesses in the rigor of prior research that serves as the key support for the proposed project? Have the investigators presented strategies to ensure a robust and unbiased approach, as appropriate for the work proposed? Are potential problems, alternative strategies, and benchmarks for success presented? If the project is in the early stages of development, will the strategy establish feasibility, and will particularly risky aspects be managed? Have the investigators presented adequate plans to address relevant biological variables, such as sex, for studies in vertebrate animals or human subjects?

For Phase I applications, will the strategy establish feasibility, and will particularly risky aspects be managed? Are there clear, appropriate, measurable goals (milestones) that should be achieved prior to initiating Phase II?

For Fast-Track applications, are there clear, appropriate, measurable goals (milestones) that should be achieved prior to initiating Phase II? Will successful completion of the research aims significantly advance development of the proposed product or service toward eventual commercialization?

For Phase II (all types) applications, will successful completion of the research aims significantly advance development of the proposed product or service toward eventual commercialization? How well does the application demonstrate progress toward meeting the Phase I (or equivalent) objectives, demonstrating feasibility, and providing a solid foundation for the proposed Phase II activity?

If the project involves human subjects and/or NIH-defined clinical research, are the plans to address:

- 1) the protection of human subjects from research risks, and
- 2) inclusion (or exclusion) of individuals on the basis of sex, race, and ethnicity, as well as the inclusion or exclusion of individuals of all ages (including children and older adults), justified in terms of the scientific goals and research strategy proposed?

In addition, for applications involving clinical trials

How sound is the proposed Regulatory Plan to meet Federal regulatory requirements?

Does the application adequately address the following, if applicable:

Study Design

Is the study design justified and appropriate to address primary and secondary outcome variable(s)/endpoints that will be clear, informative and relevant to the hypothesis being tested? Is the scientific rationale/premise of the study based on previously well-designed preclinical and/or clinical research? Given the methods used to assign participants and deliver interventions, is the study design adequately powered to answer the research question(s), test the proposed hypothesis/hypotheses, and provide interpretable results? Is the trial appropriately designed to conduct the research efficiently? Are the study populations (size, sex, age, demographic group), proposed intervention arms/dose, and duration of the trial, appropriate and well justified?

Are potential ethical issues adequately addressed? Is the process for obtaining informed consent or assent appropriate? Is the eligible population available? Are the plans for recruitment outreach, enrollment, retention, handling dropouts, missed visits, and losses to follow-up appropriate to ensure robust data collection? Are the planned recruitment timelines feasible and is the plan to monitor accrual adequate? Has the need for randomization (or not), masking (if appropriate), controls, and inclusion/exclusion criteria been addressed? Are differences addressed, if applicable, in the intervention effect due to sex and race/ethnicity?

Are the plans to standardize, assure quality of, and monitor adherence to, the trial protocol and data collection or distribution guidelines appropriate? Is there a plan to obtain required study agent(s)? Does the application propose to use existing available resources, as applicable?

Data Management and Statistical Analysis

Are planned analyses and statistical approach appropriate for the proposed study design and methods used to assign participants and deliver interventions? Are the procedures for data management and quality control of data adequate at clinical site(s) or at center laboratories, as applicable? Have the methods for standardization of procedures for data management to assess the effect of the intervention and quality control been addressed? Is there a plan to complete data analysis within the proposed period of the award?

Environment

Will the scientific and business environment in which the work will be done contribute to the probability of success and eventual commercialization? Are the small business support, equipment and other physical resources available to the investigators adequate for the project proposed? Will the project benefit from unique features of the scientific environment, subject populations, or collaborative arrangement?

For Phase I, applications, does the small business concern have appropriate business expertise and resources, or have they identified appropriate business resources, to accomplish the aims of this project and support commercialization of the proposed product or service?

For Phase II (all types) or Fast-Track applications, does the applicant have access to the business experts and resources needed to accomplish the aims of this project and to commercialize the proposed product or service?

In addition, for applications involving clinical trials

If proposed, are the administrative, data coordinating, enrollment and laboratory/testing centers, appropriate for the trial proposed?

Does the application adequately address the capability and ability to conduct the trial at the proposed site(s) or centers? Are the plans to add or drop enrollment centers, as needed, appropriate?

If international site(s) is/are proposed, does the application adequately address the complexity of executing the clinical trial?

If multi-sites/centers, is there evidence of the ability of the individual site or center to: (1) enroll the proposed numbers; (2) adhere to the protocol; (3) collect and transmit data in an accurate and timely fashion; and, (4) operate within the proposed organizational structure?

Additional Review Criteria

As applicable for the project proposed, reviewers will evaluate the following additional items while determining scientific and technical merit, and in providing an overall impact score, but will not give separate scores for these items.

Study Timeline

Specific to applications involving clinical trials

Is the study timeline described in detail, taking into account start-up activities, the anticipated rate of enrollment, and planned follow-up assessment? Is the projected timeline feasible and well justified? Does the project incorporate efficiencies and utilize existing resources (e.g., CTSA, practice-based research networks, electronic medical records, administrative database, or patient registries) to increase the efficiency of participant enrollment and data collection, as appropriate?

Are potential challenges and corresponding solutions discussed (e.g., strategies that can be implemented in the event of enrollment shortfalls)?

Commercialization Plan (Phase II and Fast-Track Only)

For Phase II (all types) and Fast-Track applications, reviewers will consider the following:

How well does the application present the market opportunity, including market segments, that its product or technology will address? Does the applicant understand the barriers to commercialization of its product or service (e.g., regulatory approval, insurance reimbursement, competitive products, customer preferences)? Does the application have appropriate strategies to address these barriers?

Does the application provide appropriate post-STTR product development and commercialization milestones and explain how these milestones will be achieved? Does the application present a plan for funding the development and commercialization of the product or service? If applicable, did the applicant obtain letters of interest or commitment for such funding and/or resources?

Are the executives, management team, and business experts well suited to advance the development and commercialization of the proposed product or service? If not, is there a plan in place to add the necessary expertise as the product or service advances towards commercialization?

Is there a sound strategy for driving product adoption and generating revenue from the product or service (e.g., product sales, licensing, partnerships)?

Does the application address the current private-sector landscape in the proposed technical area? Does the application explain how the project differs from or complements existing commercial activity? For applications that duplicate well-funded private development, does the application justify why federal support is needed despite existing private investment?

Protections for Human Subjects

For research that involves human subjects but does not involve one of the categories of research that are exempt under 45 CFR Part 46, the committee will evaluate the justification for involvement of human subjects and the proposed protections from research risk relating to their participation according to the following five review criteria: 1) risk to subjects, 2) adequacy of protection against risks, 3) potential benefits to the subjects and others, 4) importance of the knowledge to be gained, and 5) data and safety monitoring for clinical trials.

For research that involves human subjects and meets the criteria for one or more of the categories of research that are exempt under 45 CFR Part 46, the committee will evaluate: 1) the justification for the exemption, 2) human subjects involvement and characteristics, and 3) sources of materials. For additional information on review of the Human Subjects section, please refer to the [Guidelines for the Review of Human Subjects \(http://grants.nih.gov/grants/guide/uri_redirect.htm?id=11175\)](http://grants.nih.gov/grants/guide/uri_redirect.htm?id=11175).

Vertebrate Animals

The committee will evaluate the involvement of live vertebrate animals as part of the scientific assessment according to the following three points: (1) a complete description of all proposed procedures including the species, strains, ages, sex, and total numbers of animals to be used; (2) justifications that the species is appropriate for the proposed research and why the research goals cannot be accomplished using an alternative non-animal model; and (3) interventions including analgesia, anesthesia, sedation, palliative care, and humane endpoints that will be used to limit any unavoidable discomfort, distress, pain and injury in the conduct of scientifically valuable research. Methods of euthanasia and justification for selected methods, if NOT consistent with the AVMA Guidelines for the Euthanasia of Animals, is also required but is found in a separate section of the application. For additional information on review of the Vertebrate Animals Section, please refer to the [Worksheet for Review of the Vertebrate Animals Section \(http://grants.nih.gov/grants/guide/uri_redirect.htm?id=11150\)](http://grants.nih.gov/grants/guide/uri_redirect.htm?id=11150).

Biohazards

Reviewers will assess whether materials or procedures proposed are potentially hazardous to research personnel and/or the environment, and if needed, determine whether adequate protection is proposed.

Resubmissions

For Resubmissions (as applicable), the committee will evaluate the application as now presented, taking into consideration the responses to comments from the previous scientific review group and changes made to the project.

Phase IIB Competing Renewals

Not Applicable

Revisions

For Revisions (as applicable), the committee will consider the appropriateness of the proposed expansion of the scope of the project. If the Revision application relates to a specific line of investigation presented in the original application that was not recommended for approval by the committee, then the committee will consider whether the responses to

comments from the previous scientific review group are adequate and whether substantial changes are clearly evident.

Inclusion of Human Subjects Policies

When the proposed project involves human subjects and/or NIH-defined clinical research, the committee will evaluate the proposed plans for inclusion. For additional information on review of the Inclusion section, please refer to the [Guidelines for the Review of Inclusion in Clinical Research \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11174\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11174).

Additional Review Considerations

As applicable for the project proposed, reviewers will consider each of the following items, but will not give scores for these items, and should not consider them in providing an overall impact score.

Applications with Foreign Components

Not Applicable

Select Agent Research

Reviewers will assess the information provided in this section of the application, including 1) the Select Agent(s) to be used in the proposed research, 2) the registration status of all entities where Select Agent(s) will be used, 3) the procedures that will be used to monitor possession use and transfer of Select Agent(s), and 4) plans for appropriate biosafety, biocontainment, and security of the Select Agent(s).

Resource Sharing Plans

Reviewers will comment on whether the Resource Sharing Plan(s) (e.g., [Sharing Model Organisms \(https://sharing.nih.gov/other-sharing-policies/model-organism-sharing-policy#policy-overview\)](https://sharing.nih.gov/other-sharing-policies/model-organism-sharing-policy#policy-overview)) or the rationale for not sharing the resources, is reasonable.

Authentication of Key Biological and/or Chemical Resources

For projects involving key biological and/or chemical resources, reviewers will comment on the brief plans proposed for identifying and ensuring the validity of those resources.

Budget and Period of Support

Reviewers will consider whether the budget and the requested period of support are fully justified and reasonable in relation to the proposed research.

2. Review and Selection Process

Applications will be evaluated for scientific and technical merit by (an) appropriate Scientific Review Group(s) convened by the Center for Scientific Review (CSR), in accordance with [NIH peer review policies and practices \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11154\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11154), using the stated review criteria. Assignment to a Scientific Review Group will be shown in the eRA Commons.

As part of the scientific peer review, all applications will receive a written critique.

Applications may undergo a committee process in which only those applications deemed to have the highest scientific and technical merit (generally the top half of applications under review) will be discussed and assigned an overall impact score.

Applications will be assigned on the basis of established PHS referral guidelines to the appropriate NIH Institute or Center. Applications will compete for available funds with all other recommended applications. Following initial peer review, recommended applications will receive a second level of review by the appropriate national Advisory Council or Board. The following will be considered in making funding decisions:

- Scientific and technical merit of the proposed project as determined by scientific peer review.
- Availability of funds.
- Relevance of the proposed project to program priorities.
- Security risk as assessed by the [HHS Due Diligence Program \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82425\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82425).

If the application is under consideration for funding, NIH will request "just-in-time" information from the applicant as described in the [NIH Grants Policy Statement Section 2.5.1. Just-in-Time Procedures \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=82418\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=82418). This request is not a Notice of Award nor should it be construed to be an indicator of possible funding.

Prior to making an award, NIH reviews an applicant's federal award history in SAM.gov to ensure sound business practices. An applicant can review and comment on any information in the Responsibility/Qualification records available in SAM.gov. NIH will consider any comments by the applicant in the Responsibility/Qualification records in SAM.gov to ascertain the applicant's integrity, business ethics, and performance record of managing Federal awards per 2 CFR Part 200.206 "Federal awarding agency review of risk posed by applicants." This provision will apply to all NIH grants and cooperative agreements except fellowships.

Disclosure Requirements Regarding Ties to Foreign Countries

SBIR and STTR applicants under consideration for award will be required to submit the U.S. Small Business Administration (SBA) [Required Disclosures of Foreign Affiliations or Relationships to Foreign Countries \(https://grants.nih.gov/grants/guide/url_redirect.htm?id=82426\)](https://grants.nih.gov/grants/guide/url_redirect.htm?id=82426) form (referred to as the "Disclosure Form" hereafter), during the JIT process. Applicants are required to disclose all funded and unfunded relationships with foreign countries, using the Disclosure Form, for all owners and covered individuals. "Covered individual" means an individual who-

(A) contributes in a substantive, meaningful way to the scientific development or execution of a research and development project proposed to be carried out with a research and development award from a Federal research agency; or

(B) is identified by the small business in the application as [senior key personnel \(https://grants.nih.gov/grants/policy/nihgps/HTML5/section_1/1.2_definition_of_terms.htm#Senior/Key_Personnel\)](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_1/1.2_definition_of_terms.htm#Senior/Key_Personnel) (i.e., individuals who contribute to the scientific development or execution of a project in a substantive, measurable way).

Upon request, applicants must submit the completed Disclosure Form and any additional agency-specific information electronically in eRA Commons via the Just-In-Time (JIT) process as described in the [NIH Grants Policy Statement Section 2.5.1. \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=82418\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=82418) Applicants must continue to comply with NIH Other Support disclosure requirements as provided in NIH GPS Section 2.5.1 and may be required to provide similar information on the Disclosure Form for covered individuals identified in the application. Applicants that fail to submit a completed Disclosure Form during the JIT process will not be considered for funding.

Denial of Awards

Applicants are encouraged to consider whether their entity's relationships with [foreign countries of concern \(https://www.sbir.gov/foreign_disclosures\)](https://www.sbir.gov/foreign_disclosures) will pose a security risk. HHS cannot make an award under the SBIR or STTR program if it is determined the small business concern submitting the proposal or application has any of the following:

- has an owner or covered individual that is party to a malign foreign talent recruitment program;
- has a business entity, parent company, or subsidiary located in the People's Republic of China or another [foreign country of concern \(https://www.sbir.gov/foreign_disclosures\)](https://www.sbir.gov/foreign_disclosures); or
- has an owner or covered individual that has a foreign affiliation with a research institution located in the People's Republic of China or another foreign country of concern.
- has a security risk connecting the small business concern to an entity, including any affiliates of the entity, or individual on—
 - the UFLPA Entity List maintained by the Department of Homeland Security;
 - the Non-SDN Chinese Military-Industrial Complex Companies List of the Office of Foreign Assets Control maintained by the Department of the Treasury;
 - the Section 889 Prohibition List established under section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115–232; 132 Stat. 1917) and maintained by the Department of Defense;
 - the list of Chinese Military companies required under section 1260H of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (10 U.S.C. 113 note) and maintained by the Department of Defense;
 - the Military End User List maintained by the Bureau of Industry and Security of the Department of Commerce;
 - the Entity List maintained by the Bureau of Industry and Security of the Department of Commerce;
 - the List of Equipment and Services maintained by the Federal Communications Commission; or
 - the Withhold Release Orders and Findings List maintained by U.S. Customs and Border Protection;
- a security risk with a primary source that is classified
- a security risk that the federal agency determines warrants a denial

If an award cannot be made due to a security risk, HHS will advise the small business concern that a security risk was found that required denial of award and indicate which category listed above necessitated the denial.

NIH, CDC, and FDA will not provide applicants the opportunity to address any identified security risks prior to award.

Receipt of an award decision denying an application due to an identified security risk does not prohibit the small business concern from being eligible for an award in a subsequent award cycle.

3. Anticipated Announcement and Award Dates

After the peer review of the application is completed, the PD/PI will be able to access their Summary Statement (written critique) via the [eRA Commons \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11123\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11123). Refer to Part 1 for dates for peer review, advisory council review, and earliest start date.

Information regarding the disposition of applications is available in the [NIH Grants Policy Statement Section 2.4.4 Disposition of Applications \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=82416\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=82416).

Section VI. Award Administration Information

1. Award Notices

A Notice of Award (NoA) is the official authorizing document notifying the applicant that an award has been made and that funds may be requested from the designated HHS payment system or office. The NoA is signed by the Grants Management Officer and emailed to the recipient's business official.

In accepting the award, the recipient agrees that any activities under the award are subject to all provisions currently in effect or implemented during the period of the award, other Department regulations and policies in effect at the time of the award, and applicable statutory provisions.

Recipients must comply with any funding restrictions described in [Section IV.6. Funding Restrictions](#). Any pre-award costs incurred before receipt of the NoA are at the applicant's own risk. For more information on the Notice of Award, please refer to the [NIH Grants Policy Statement Section 5. The Notice of Award \(https://grants.nih.gov/grants/policy/nihgps/HTML5/section_5/5_the_notice_of_award.htm\)](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_5/5_the_notice_of_award.htm) and NIH Grants & Funding website, see [Award Process. \(https://grants.nih.gov/grants/pre-award-process.htm#award\)](https://grants.nih.gov/grants/pre-award-process.htm#award)

Individual awards are based on the application submitted to, and as approved by, the NIH and are subject to the IC-specific terms and conditions identified in the NoA.

ClinicalTrials.gov: If an award provides for one or more clinical trials. By law (Title VIII, Section 801 of Public Law 110-85), the "responsible party" must register and submit results information for certain "applicable clinical trials" on the ClinicalTrials.gov Protocol Registration and Results System Information Website (<https://register.clinicaltrials.gov> (<https://register.clinicaltrials.gov/>)). NIH expects registration and results reporting of all trials whether required under the law or not. For more information, see <https://grants.nih.gov/policy/clinical-trials/reporting/index.htm> (<https://grants.nih.gov/policy/clinical-trials/reporting/index.htm>)

Institutional Review Board or Independent Ethics Committee Approval: Recipient institutions must ensure that all protocols are reviewed by their IRB or IEC. To help ensure the safety of participants enrolled in NIH-funded studies, the recipient must provide NIH copies of documents related to all major changes in the status of ongoing protocols.

Data and Safety Monitoring Requirements: The NIH policy for data and safety monitoring requires oversight and monitoring of all NIH-conducted or -supported human biomedical and behavioral intervention studies (clinical trials) to ensure the safety of participants and the validity and integrity of the data. Further information concerning these requirements is found at http://grants.nih.gov/grants/policy/hs/data_safety.htm (http://grants.nih.gov/grants/policy/hs/data_safety.htm) and in the application instructions (SF424 (R&R) and PHS 398).

Investigational New Drug or Investigational Device Exemption Requirements: Consistent with federal regulations, clinical research projects involving the use of investigational therapeutics, vaccines, or other medical interventions (including licensed products and devices for a purpose other than that for which they were licensed) in humans under a research protocol must be performed under a Food and Drug Administration (FDA) investigational new drug (IND) or investigational device exemption (IDE).

2. Administrative and National Policy Requirements

The following Federal wide and HHS-specific policy requirements apply to awards funded through NIH:

- The rules listed at [2 CFR Part 200 \(https://www.ecfr.gov/current/title-2/subtitle-A/chapter-II/part-200\)](https://www.ecfr.gov/current/title-2/subtitle-A/chapter-II/part-200), Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.
- All NIH grant and cooperative agreement awards include the [NIH Grants Policy Statement \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120) as part of the terms and conditions in the Notice of Award (NoA). The NoA includes the requirements of this NOFO. For these terms of award, see the [NIH Grants Policy Statement Part II: Terms and Conditions of NIH Grant Awards, Subpart A: General \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120) and [Part II: Terms and Conditions of NIH Grant Awards, Subpart B: Terms and Conditions for Specific Types of Grants, Recipients, and Activities \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=11159\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11159).

All federal statutes and regulations relevant to federal financial assistance, including those highlighted in [NIH Grants Policy Statement Section 4 Public Policy Requirements, Objectives and Other Appropriation Mandates. \(https://grants.nih.gov/grants/policy/nihgps/HTML5/section_4/4_public_policy_requirements_objectives_and_other_appropriation_mandates.htm\)](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_4/4_public_policy_requirements_objectives_and_other_appropriation_mandates.htm)

By applying for or accepting federal funds from HHS, recipients certify compliance with all federal antidiscrimination laws and these requirements and that complying with those laws is a material condition of receiving federal funding streams. Recipients are responsible for ensuring subrecipients, contractors, and partners also comply.

Applicants and recipients are strongly encouraged to refer to the [NIH Director's Statement of Priorities \(https://www.nih.gov/about-nih/nih-director/statements/advancing-nih-mission-through-unified-strategy\)](https://www.nih.gov/about-nih/nih-director/statements/advancing-nih-mission-through-unified-strategy), entitled "Advancing NIH's Mission Through a Unified Strategy."

Recipients are responsible for ensuring that their activities comply with all applicable federal regulations. Pursuant to 2 CFR 200.340, by accepting an NIH award, the recipient agrees that continued funding for the award is contingent upon the availability of appropriated funds, recipient satisfactory performance, compliance with the Terms and Conditions of the award, and may also otherwise be terminated, to the extent authorized by law, if the agency determines that the award no longer effectuates the program goals or agency priorities, in line with 2 CFR 200.340(a)(4).

Pursuant to the Cybersecurity Act of 2015, Div. N, § 405, Pub. Law 114-113, 6 USC § 1533(d), the HHS Secretary has established a common set of voluntary, consensus-based, and industry-led guidelines, best practices, methodologies, procedures, and processes.

Successful recipients under this NOFO agree that:

When recipients, subrecipients, or third-party entities have:

- ongoing and consistent access to HHS owned or operated information or operational technology systems; and
- receive, maintain, transmit, store, access, exchange, process, or utilize personal identifiable information (PII) or personal health information (PHI) obtained from the awarding HHS agency for the purposes of executing the award.

Cybersecurity plans and procedures **must** at minimum include the following:

- Develop cybersecurity plans and procedures, modeled after the [NIST Cybersecurity framework \(https://www.nist.gov/cyberframework\)](https://www.nist.gov/cyberframework), to protect HHS systems and data:
 - **Identify:**
 - Develop an inventory of all assets and accounts with access to HHS owned and operated information or operational technology systems or which obtain PII or PHI for the purposes of the award.
 - **Protect:**
 - Limit access to HHS owned and operated systems to only those in need of access to complete reward activities.
 - Require all staff to complete annual cybersecurity and privacy awareness training. Visit [405\(d\): Knowledge on Demand \(hhs.gov\) \(https://405d.hhs.gov/kod/five-threats\)](https://405d.hhs.gov/kod/five-threats) to obtain free trainings, if needed.
 - Enable multifactor authentication for all employees, subrecipients, and third-party entities to access HHS owned and operated information or operational technology systems.
 - Regularly backup sensitive data and test backups.
 - **Detect:**
 - Install anti-virus or anti-malware software on all devices, servers, and accounts used to connect to HHS owned and operated systems.
 - **Respond:**
 - Develop an incident response plan. See [Incident-Response-Plan-Basics_508c.pdf \(cisa.gov\) \(https://www.cisa.gov/sites/default/files/publications/Incident-Response-Plan-Basics_508c.pdf\)](https://www.cisa.gov/sites/default/files/publications/Incident-Response-Plan-Basics_508c.pdf) to learn about developing incident response plans.
 - Have cybersecurity incident reporting procedures that ensure the relevant HHS awarding agencies are notified of a cybersecurity incident within 48 hours of discovery. A cybersecurity incident is defined as an unplanned interruption to a technology service or reduction in the quality of a technology service, or an occurrence that actually or potentially jeopardizes the confidentiality, integrity, or availability of an information system or the information the system processes, stores, or transmits.
 - **Recover:**
 - Investigate incidents and plug any security gaps identified.

All activities proposed in your application and budget narrative must align with applicable law, including but not limited to statutes, executive orders, federal regulations and applicable judicial holdings. Accordingly, discretionary awards shall not be used to fund, promote, encourage, subsidize, or facilitate; racial preferences or other forms of racial discrimination by the recipient, including activities where race or intentional proxies for race will be used as a selection criterion for employment or program participation; denial by the recipient of the sex binary in humans, or the belief that sex is a chosen or mutable characteristic; illegal immigration; or any other initiatives that compromise public safety. If an application does not align, the application will not receive funding to the extent permitted by law and applicable court orders.

As of October 1, 2025, HHS has adopted [2 CFR Part 200 \(https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ecfr.gov%2Fcurrent%2Ftitle-2%2Fpart-200&data=05%7C02%7Ckasima.garst%40nih.gov%7C13d5884be5204dbdba6608deb03a2414%7C14b77578977342d58507251ca2dc2b06%7C0%7C0%7C639141960930061843%7C\)](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ecfr.gov%2Fcurrent%2Ftitle-2%2Fpart-200&data=05%7C02%7Ckasima.garst%40nih.gov%7C13d5884be5204dbdba6608deb03a2414%7C14b77578977342d58507251ca2dc2b06%7C0%7C0%7C639141960930061843%7C) with some modifications included in 2 CFR Part 300. These regulations replace those in 45 CFR Part 75. However, for NIH, under the Consolidated Appropriations Act for FY 2026, ([P.L. 119-75 \(https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.congress.gov%2Fbill%2F119th-congress%2Fhouse-bill%2F7148&data=05%7C02%7Ckasima.garst%40nih.gov%7C13d5884be5204dbdba6608deb03a2414%7C14b77578977342d58507251ca2dc2b06%7C0%7C0%7C63914196093008%7C\)](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.congress.gov%2Fbill%2F119th-congress%2Fhouse-bill%2F7148&data=05%7C02%7Ckasima.garst%40nih.gov%7C13d5884be5204dbdba6608deb03a2414%7C14b77578977342d58507251ca2dc2b06%7C0%7C0%7C63914196093008%7C) Division B, Title II, Sec. 224), the provisions relating to indirect costs in 45 CFR 75 continue to apply to NIH awards. Consistent with the statute, NIH will not apply updated thresholds outlined within 2 CFR Part 200, at this time.

For applications involving substance abuse, the application must not support harm reduction. Please see [Updated Funding Guidance for Recipients on Supplies and Services \(https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.samhsa.gov%2Fsites%2Fdefault%2Ffiles%2Fdear-colleague-letter-updated-hr-funding-guidance.pdf&data=05%7C02%7Cgary.marlowe%40nih.gov%7C0c3205f829f944888af908dea6141f06%7C14b77578977342d58507251ca2dc2b06%7C0%7C0%7C6391308025125161\)](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.samhsa.gov%2Fsites%2Fdefault%2Ffiles%2Fdear-colleague-letter-updated-hr-funding-guidance.pdf&data=05%7C02%7Cgary.marlowe%40nih.gov%7C0c3205f829f944888af908dea6141f06%7C14b77578977342d58507251ca2dc2b06%7C0%7C0%7C6391308025125161)

Report fraud, waste and abuse

The Office of Inspector General Hotline accepts tips from all sources about potential fraud, waste, abuse and mismanagement in Department of Health & Human Services programs. The reporting individual should indicate that the fraud, waste and/or abuse concerns an SBIR/STTR grant or contract, if relevant. [Report Fraud. \(http://grants.nih.gov/grants/guide/url_redirect.htm?id=31200\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=31200)

Cooperative Agreement Terms and Conditions of Award

Not Applicable

3. Data Management and Sharing

SBIR and STTR recipients may retain the rights to data generated during the performance of an SBIR or STTR award for up to 20 years after the award date, per the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) Program Policy Directive. Further information about SBIR and STTR data rights are enumerated in the [Grants Policy Statement Section 18.5.5.2 Intellectual property \(https://grants.nih.gov/grants/policy/nihgps/HTML5/section_18/18.5.5_administrative_requirements.htm#Intellec\)](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_18/18.5.5_administrative_requirements.htm#Intellec). Data Management and Sharing Plan is not applicable for this NOFO.

4. Reporting

When multiple years are involved, recipients will be required to submit the Research Performance Progress Report (RPPR) annually and financial statements as required in the [NIH Grants Policy Statement Section 8.4.1 Reporting](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.4.1_reporting.htm). (https://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.4.1_reporting.htm) To learn more about post-award monitoring and reporting, see the NIH Grants & Funding website, see [Post-Award Monitoring and Reporting](https://grants.nih.gov/grants/guide/url_redirect.php?id=82428). (https://grants.nih.gov/grants/guide/url_redirect.php?id=82428).

NIH requires that SBIR/STTR recipients submit the following reports within 120 days of the end of the grant budget period unless the recipient is under an extension.

- [Final RPPR](http://grants.nih.gov/grants/guide/url_redirect.htm?id=31162) (http://grants.nih.gov/grants/guide/url_redirect.htm?id=31162)
- [Final Invention Statement and Certification \(HHS 568\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=31166) (http://grants.nih.gov/grants/guide/url_redirect.htm?id=31166)
- [Annual Invention Utilization Reports](http://grants.nih.gov/grants/guide/url_redirect.htm?id=31169) (http://grants.nih.gov/grants/guide/url_redirect.htm?id=31169)
- [Federal Financial Report \(FFR\)](http://grants.nih.gov/grants/guide/url_redirect.htm?id=31167) (http://grants.nih.gov/grants/guide/url_redirect.htm?id=31167)
- [SBIR.gov](https://www.sbir.gov/user/login) (https://www.sbir.gov/user/login)

Failure to submit timely final reports may affect future funding to the organization or awards with the same PD/PI. NIH NOFOs outline intended research goals and objectives. Post award, NIH will review and measure performance based on the details and outcomes that are shared within the RPPR, as described at 2 CFR 200.301.

Disclosure of Foreign Relationships Reporting Requirements

Recipients are responsible for monitoring their relationships with foreign countries of concern post-award, for any changes that may impact previous disclosures. SBCs receiving an award under the SBIR/STTR program are required to submit an updated Disclosure Form to report any of the following changes to NIH, CDC, and FDA throughout the duration of the award:

- any change to a disclosure on the Disclosure Form;
- any material misstatement that poses a risk to national security; and
- any change of ownership, change to entity structure, or other substantial change in circumstances of the SBC that NIH, CDC, and FDA determine poses a risk to national security.

Regular, annual updates are required at the time of all SBIR/STTR annual, interim, and final Research Performance Progress Reports (RPPRs). For changes that occur between RPPR submissions, recipients must request prior approval from NIH for legal actions such as merger, acquisition, and successor-in-interest or any other change in ownership, entity structure, covered individual, or other substantive changes in circumstances no later than 30 days before the proposed change. See [NIH Grants Policy Statement 8.1.3 Requests for Prior Approva](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.1.3_requests_for_prior_approval.htm) (https://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.1.3_requests_for_prior_approval.htm) (http://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.1.3_requests_for_prior_approval.htm) and [NIH Grants Policy Statement 18.5.2.2 Change in Organization Size & Change of Recipient Institution Actions](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_18/18.5.2_eligibility.htm#Change) (https://grants.nih.gov/grants/policy/nihgps/HTML5/section_18/18.5.2_eligibility.htm#Change) for more details. Disclosure Forms are required for any changes as described above. Recipients are required to upload these updated disclosures using the Additional Materials (AM) tool in eRA Commons.

If the recipient reports a covered foreign relationship that meets any of the risk criteria prohibiting funding described in this NOFO, NIH, CDC, and FDA may deem it necessary to terminate the award for material failure to comply with the federal statutes, regulations, or terms and conditions of the federal award. [Refer to NIH GPS Section 8.5.2 Remedies for Noncompliance or Enforcement Actions: Suspension, Termination, and Withholding of Support](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.5.2_remedies_for_noncompliance_or_enforcement_actions-suspension_termination_and_withholding_of_support.htm?Highlight=termination) (https://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.5.2_remedies_for_noncompliance_or_enforcement_actions-suspension_termination_and_withholding_of_support.htm?Highlight=termination) for more information. Recipients are encouraged to monitor their covered foreign relationships post-award and avoid entering into relationships, both funded and unfunded, that may pose a security risk and jeopardize their ability to retain their award.

Agency Recovery Authority and Repayment of Funds

An SBC will be required to repay all amounts received from NIH, CDC, and FDA under the award if either of the following determinations are made upon assessment of a change to their disclosure:

- the SBC makes a material misstatement that NIH, CDC, and FDA determine poses a risk to national security; or
- there is a change in ownership, change in entity structure, or other substantial change in circumstances of the SBC that NIH, CDC, and FDA determine poses a risk to national security.

The repayment requirements and procedures provided in [Section 8.5.4 Recovery of Funds](https://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.5.4_recovery_of_funds.htm) (https://grants.nih.gov/grants/policy/nihgps/HTML5/section_8/8.5.4_recovery_of_funds.htm) of the NIH GPS apply and may also be subject to additional noncompliance and enforcement actions as described in Section 8.5.2 of the GPS. Recipients are required to follow the repayment procedures provided in the [Guidance for Repayment of Grant Funds to the NIH](https://grants.nih.gov/policy/compliance.htm). (https://grants.nih.gov/policy/compliance.htm).

Section VII. Agency Contacts

We encourage inquiries concerning this funding opportunity and welcome the opportunity to answer questions from potential applicants.

Application Submission Contacts

[eRA Service Desk](https://www.era.nih.gov/need-help) (https://www.era.nih.gov/need-help) - Questions regarding ASSIST, eRA Commons, application errors and warnings, documenting system problems that threaten submission by the due date, and post-submission issues.

[Grants.gov Support Center](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fgrants.gov%2Fsupport&data=05%7C02%7Cantoinette.caliman%40nih.gov%7Caf6dde64d644478d4e8b08dde6700581%7C14b77578977342d58507251ca2dc2b) (https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fgrants.gov%2Fsupport&data=05%7C02%7Cantoinette.caliman%40nih.gov%7Caf6dde64d644478d4e8b08dde6700581%7C14b77578977342d58507251ca2dc2b) - Questions regarding Grants.gov registration and services (e.g., Workspace, subscriptions).

Scientific/Research Contact(s)

NIH SEED (Small business Education and Entrepreneurial Development)
Telephone: 301-827- 8595

Email: SEEDinfo@nih.gov (mailto:SEEDinfo@nih.gov)

See [NIH Institutes, Centers, and Offices](https://grants.nih.gov/funding/find-a-fit-for-your-research/nih-institutes-centers-offices) (https://grants.nih.gov/funding/find-a-fit-for-your-research/nih-institutes-centers-offices) for ICO-specific contacts.

Peer Review Contact(s)

Examine your eRA Commons account for review assignment and contact information (information appears two weeks after the submission due date).

Financial/Grants Management Contact(s)

See [NIH Institutes, Centers, and Offices](https://grants.nih.gov/funding/find-a-fit-for-your-research/nih-institutes-centers-offices) (https://grants.nih.gov/funding/find-a-fit-for-your-research/nih-institutes-centers-offices) for ICO-specific contacts.

Section VIII. Other Information

Recently issued trans-NIH [policy notices](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11163) (http://grants.nih.gov/grants/guide/url_redirect.htm?id=11163) may affect your application submission. A full list of policy notices published by NIH is provided in the [NIH Guide for Grants and Contracts](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11164) (http://grants.nih.gov/grants/guide/url_redirect.htm?id=11164). All awards are subject to the terms and conditions, cost principles, and other considerations described in the [NIH Grants Policy Statement](http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120) (http://grants.nih.gov/grants/guide/url_redirect.htm?id=11120).

Authority and Regulations

Awards are made under the authorization of Sections 301 and 405 of the Public Health Service Act as amended (42 USC 241 and 284) and under Federal Regulations 42 CFR Part 52 and 2 CFR Part 200.

The STTR Program is mandated by the Small Business Reauthorization Act of 1997 (P.L. 105-135), and reauthorizing legislation, P.L. 107-50, P.L. 112-81 (SBIR/STTR Reauthorization Act of 2011), as reauthorized and extended under P.L. 114-328, Section 1834, P.L. 115-232, P.L. 117-183, and P.L. 119-83. The basic design of the NIH STTR Program is in accordance with the Small Business Administration (SBA) [SBIR and STTR Policy Directive \(https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.sbir.gov%2Fabout%2Fpolicies&data=05%7C02%7Cchelsey.hughes%40nih.gov%7C6c60a560426646011d1608de9bab9095%7C14b77578977342d5850725](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.sbir.gov%2Fabout%2Fpolicies&data=05%7C02%7Cchelsey.hughes%40nih.gov%7C6c60a560426646011d1608de9bab9095%7C14b77578977342d5850725)
