 - Facilities & Other Resources (if applicable)
 - Equipment (if applicable)

Formatting:

- **Font size:** Must be 11 points or larger. Smaller text in graphics, figures, graphs, diagrams, and charts is acceptable, as long as it is legible when the page is viewed at 100%.
 - Some PDF conversion software reduces font size. It is important to confirm that the final PDF document complies with the font requirements.
- **Type density:** Must be no more than 15 characters per linear inch (including characters and spaces).
- **Line spacing:** Must be no more than six lines per vertical inch.

- **Text color:** No restriction. Though not required, black or other high-contrast text colors are recommended since they print well and are legible to the largest audience.
- Recommended: black font, using Arial, Georgia, Helvetica, or Palatino Linotype
- Save all document attachments with descriptive filenames of 50 characters or less (including spaces)
- No URLs except for citations in References Cited and Biosketch
- No headers or footers

 - Specific Scope of Work
 - AOR signed Letter of Commitment if on FDP list or completed UI subrecipient Commitment form
 - Facilities & Other Resources (if applicable)
 - Equipment (if applicable)

Required formatting of contents

- Attachments must be created as a typed or word-processed document.
- Use font no smaller than 12 point, regardless of line spacing.
- Use at least 1-inch margins.
- Number each page of an attachment sequentially, unless submitting through eRA.
- The NOFO will indicate if a page limitation applies.

PDF File Format

- NIFA requires that attachments be in .pdf file format to preserve the layout and appearance of submitted documents.

File Name Restrictions

- File names of .pdf attachments must be limited to 50 characters.
- Names may not include special characters (e.g., &, –, *, %, /, #), periods (.), blank spaces or accent marks.
- An underscore (example: Attached_File.pdf) may be used to separate a filename.

- File names must be unique. No other attachment in the application package may have the same file name.

*Senior Key Personnel documents: NASA SciENCv Biographical Sketch and Current and Pending support for PI, Co-PI and Co-Is with 10% or more effort/yr)

The standard formats for all types of proposals are below:

- Page size shall be 8.5x11 inches.
- o Pages shall have at least 1-inch (2.5 cm) margins on all sides.
- o Adhere to the page limits listed in the NOFO.
- Single-spaced, in 12-point font, English-language text, and formatted using one column.
- o Font size for symbols in equations shall be consistent with this guideline.
- o Figure and table captions shall follow the same font requirements and restrictions as the main proposal text.
- o Proposers shall not change the default settings to circumvent page limit requirements.
- While superscripts, subscripts and text within figures and tables may use a smaller font, the text shall, in the reviewers' judgment, be legible without magnification.
- Expository text necessary for the proposal may not be located solely in figures or tables, or in their captions.
- Proposals shall utilize units that are standard for the relevant discipline.
- Fold-out pages, illustrations, and/or photographs are allowed for the display of unique and critically essential proposal data. Fold-out pages will count as multiple pages, dependent on the number of fold-out sections, against the required page limit. For

example, a three-section fold-out is considered equal to three pages counted towards the page limitation.

- Only non-substantive proposal material, e.g., page numbers, section titles, disclaimers, are permitted in headers and footers.
- Proposals shall include references to published papers and other products to demonstrate, for example, that the methodology has passed peer review, but shall not include references to materials outside the proposal (e.g., published articles and sites on the internet) for information or material needed to either complete or understand the proposal. Peer reviewers have no obligation to read materials outside of the proposal.
